

# *Degree Paths: Biology*

## **NATURAL SCIENCE MAJOR Biology**

### **Student A**

- Currently working as a medical researcher
- Took no summer classes, defended their CHC thesis, and graduated in the fall of the fifth year

### **Student B**

- Participated in UO College Scholars program, took summer classes and graduated in four years

### **Student C**

- Earned a Master's degree and is in medical school
- Participated in UO College Scholars program, took classes one summer and graduated in four years

---

## **NEXT STEPS**

### **1. Meet with your CHC advisor**

- a. Log into DuckWeb and go to Degree Audit to look up your advisor, or
- b. Stop by the CHC Reception Desk, or
- c. Go to any CHC faculty member you'd like

### **2. Meet with an advisor in your major**

The Biology department's Advising Center provides information major requirements, courses, and internships: [biology.uoregon.edu/undergraduate-program/advising/](http://biology.uoregon.edu/undergraduate-program/advising/)

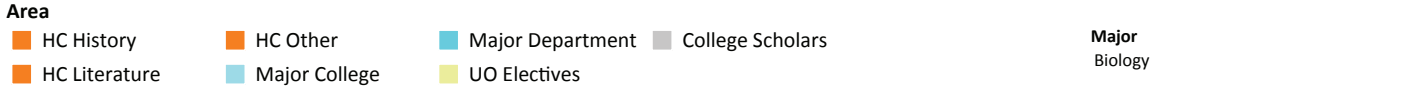

Faculty advising is available; send email to [bioadvise@uoregon.edu](mailto:bioadvise@uoregon.edu) or call (541) 346-4525. A specialist in marine biology advising is also available.

Students considering a career in the health professions can also consult the UO Health Professions Program: [healthprofessions.uoregon.edu/](http://healthprofessions.uoregon.edu/)

### **3. Meet at least annually with both your advisors: CHC and your Biology major**
