Clark Honors Introductory Program – CHIP
1 course  
**First Year – fall only**  
HC 199H  (1)

HC Arts & Letters and HC Social Science (5 Courses)
2 courses  
**Honors College Arts & Letters**  
HC 221H (fall only)  (4)
HC 222H (winter only)  (4)

2 courses  
**Honors College Social Science**  
HC 231H (fall only)  (4)
HC 232H (winter only)  (4)

1 course  
**Honors College Arts & Letters or Honors College Social Science Research**  
HC 223H (spring only)  (4)
HC 233H (spring only)  (4)

SCIENCE AND MATH (4 Courses)
Effective fall 2014 – HC 207H or HC 209H is required for all incoming students except science majors and some minors; see other side for details.

1 course*  
**Honors College Lab Science or Honors College Science**  
HC 207H  (4)
HC 209H  (4)

1 course  
**One Course in Quantitative Reasoning or Mathematics**  
(See:  honors.uoregon.edu/content/graduation-requirements)  (4)

2 courses  
**Two additional approved Science or Mathematics courses**  
(See:  honors.uoregon.edu/content/graduation-requirements)  (8)

SECOND LANGUAGE
Two years or completion of second year, third-term proficiency, or demonstration of proficiency by examination. This requirement is waived for certain majors; see other side for details.

Global Perspectives Requirement (GP)
Take HC 434H or one qualifying non-CHC course  
HC 434H  (4)

U.S.: Difference, Inequality, and Agency Requirement (DIA)
Take HC 444H or one qualifying non-CHC course  
HC 444H  (4)

COLLOQUIUM (5 Courses)
One of each of the following colloquia:

**Honors College Arts & Letters Colloquium**  
HC 421H  (4)

**Honors College HC Social Science Colloquium**  
HC 431H  (4)

**Honors College Science Colloquium**  
HC 441H  (4)

Plus, two additional (elective) colloquia. Any HC colloquium (421, 431, 441, 434, 444) may be used to fulfill the elective colloquia requirement. Some HC colloquia satisfy both a colloquium and a multicultural requirement (see above).

THESIS
1 course  
**Honors College Thesis Prospectus** (required)  
HC 477H  (2)

**Honors College Thesis and Defense**

ADDITIONAL UNIVERSITY REQUIREMENTS
Major requirements: see major advisor
Upper division credits: 62
Total Credits: 180
Graded Credits: 168 (P counts as a grade if P/N is the only option)
Students who follow the Clark Honors College curriculum fulfill all of the UO general education requirements. Students who leave the Clark Honors College may be required to complete additional coursework to satisfy university graduation requirements.

Most CHC students graduate with a Bachelor of Arts or Bachelor of Science degree. Other requirements may apply to students attending professional schools at the University of Oregon.

CHC students should plan to complete their HC Arts & Letters and HC Social Science requirements by the end of their second (sophomore) years. Students may register for colloquia after completing HC 223H or HC 233H.

**Grade Point Average**

Clark Honors College students are required to maintain a minimum cumulative grade point average (GPA) of ≥3.0 for all UO coursework, not just HC courses.

**AP and IB**

Depending on courses and test scores, students may use AP or IB credits toward honors college math, science, multicultural, and second language requirements, applicable major requirements, or university electives. AP and IB credits do not count toward Clark Honors College 200-level courses, including HC 207H, HC 209H, and the HC Arts & Letters and HC Social Science courses.

**CHIP**

The Clark Honors Introductory Program (CHIP) extends the Clark Honors College network beyond CHC classes and residence halls. CHIP leaders (current CHC students) mentor groups of about seventeen freshmen by providing interest-based social and academic support, and by introducing new students to the CHC, the University of Oregon, and Eugene in the form of weekly seminars and excursions.

HC 199: CHIP is a one-credit course, offered in the fall only and required of incoming freshmen. Transfer students may also choose to take a CHIP. Each CHIP group is affiliated with a faculty member who will remain the CHC advisor for those students through all four years. Students also complete a collaborative academic project related to their CHIP theme.

**HC 207 or HC 209 Science Requirement - Exempt Science Majors and Minors**

**Majors:** Biology, Marine Biology, Biochemistry, Chemistry, Earth Sciences, Physics, Computer and Information Science, General Science, Psychology, Human Physiology, Environmental Science, Environmental Studies

**Minors:** Biology, Biochemistry, Chemistry, Computer and Information science, Earth Sciences, Physics, Psychology.

Note-- Computer Information Technology (CIT), a minor in CIS, is NOT exempt.

**Second Language**

The CHC second-language requirement differs from the regular University’s requirement: The CHC does not automatically waive the second-language requirement for all BS degrees. In the CHC, the second-language requirement is usually waived only if the student’s major requires 90 or more credits of course work leading to a B.S. degree. Such majors include biochemistry, biology, business administration, chemistry, computer and information sciences, earth sciences, environmental studies, environmental science, general science, human physiology, MACS, marine biology, physics, product studies, and product design and materials. The second-language requirement is also waived for students pursuing bachelor of architecture (B. Arch) and bachelor of fine arts degrees (B.F.A.), interior architecture (B.I. Arch.), landscape architecture (B.L.A.), and bachelor of Music in Music Education (BMME). In music, where there are several choices of degrees, the second-language requirement is waived only in cases where it is not a requirement for the student’s chosen degree. In the case of a double major, the second language requirement cannot be waived if one of the student’s majors offers the B.A. option only.

**Grading**

Note that all courses taken to satisfy Clark Honors College requirements must be graded, unless P/NP is the only option. Only courses with grades of C- or higher can fulfill CHC requirements. In order to fulfill the CHC’s second language requirement, students must take the second-year, third-term language class (for most languages, this is XX 203) for a letter grade. For Latin, Greek, and Hebrew (which do not have a 200-level sequence), please consult your CHC faculty advisor.

**Course Substitutions**

CHC students fulfill their colloquium requirements with specific 400-level HC classes (421, 431, 441, 434, 444). HC colloquia that satisfy the GP and DIA requirements (HC 434 and HC 444, respectively) have a second designation—HC 421, 431 or 441—depending on course content and the instructor’s discipline: these equivalencies are noted on the CHC course descriptions webpage: [https://honors.uoregon.edu/content/course-descriptions](https://honors.uoregon.edu/content/course-descriptions). Current students may petition to substitute a non-HC course for a required HC course: see the CHC Canvas site, in which all current students are enrolled, for further information including the required course substitution form and submission deadlines. Students can consult their CHC faculty advisor for more information about potential course substitutions.

**Class Size**

All classes with an HC subject code are limited to nineteen or fewer students. Science and math courses that satisfy the CHC math/science requirement, other than the CHC’s own science courses (HC 207H and HC 209H), often have more than twenty-five students.

*All of the above requirements must be met in order to graduate from the Robert D. Clark Honors College.*

*Students are strongly encouraged to meet with their CHC advisor at least once each academic year.*
